The Board may exercise their powers granted by this authorisation separately for each shares issue series , in the extent permitted by applicable law.

Par. 4

The Extraordinary General Meeting of KOPEX Spółka Akcyjna resolves to adopt the following explanatory statement to the resolution submitted by the shareholder- the applicant, in accordance with Art. 445 Par. 1 of the Commercial Companies Code as a justification of this resolution:

1. Amendments to the Statutes of Association of the Company by implementation to the Statutes of Association a new authorisation for the Board to increase the share capital within the target capital is justified by a much simpler possibility to obtain funds necessary for further investment and development activities. It will be made through a significant simplification and reduction to minimum the necessary procedures and costs associated with increasing equity capital, without the need to convene a general meeting in each such a situation.

2. The Company deems it necessary and essential to take up actions on strengthening the KOPEX Group's position in foreign markets, according to the operation globalisation strategy (presence in all significant mining markets worldwide) in the accomplished concept of further development of the KOPEX S.A. Capital Group, including the optimisation process of the organisational and asset structure of the KOPEX S.A. Group's Companies, considering a lowered level of investment in the domestic mining machinery and equipment market.

Intensification of this activity, as well as enhancing competition in these markets triggers the need for continuous searching for solutions for building a competitive advantage and meeting the expectations of increasingly demanding business partners.

Research and development projects aimed at development, manufacture and offering new, technologically advanced products for the mining industry in the world, and commencing investing in the markets strategic for the KOPEX S.A. Group, in particular in Russia, China and Argentina, including establishing overhaul and repair facilities and maintenance services aimed to provide comprehensive services for machinery and equipment manufactured by the KOPEX S.A. Group and operated in several markets.

The Company is also going to accomplish investment projects within the KOPEX S.A. Capital Group, in particular, with regard to the planned construction of a coal mine. This investment may be an important pillar of KOPEX S.A. Group's economic activity in the future.

The Company does not preclude further capital investments by acquiring majority shares in the selected company /companies representing a complementary business profile that could strengthen the KOPEX S.A. Capital Group's product offer and ensure satisfactory synergies and, moreover, a company/ companies can be acquired at a price that will be attractive in the opinion of the Management Board, in the context of current market indicators for the sector in which the Company operates .

3. Capability of raising funds in tranches within the target capital will enable to use the result of rise in prices of the Company's shares, on the one hand, and allow for a flexible adjustment of the value and timing of the share capital increase, on the other hand.

4. Authorisation of the Board, approved by the Supervisory Board, to deprive shareholders of their preemptive rights for new shares within the target capital in whole or in part. It will facilitate the Company's Management Board to carry out the share issue, among others, when there appears a particularly attracting capital investment, and when circumstances justify the share issue targeted to specific shareholders selling shares of the acquired company.

5. The Supervisory Board of KOPEX S.A. is the guarantor for due protection of the rights of the Company's shareholders. The Supervisory Board will approve the price determined by the Company's Board and will grant permission for each exemption of pre-emptive rights for new shares in whole or in part, according to the wording of Par. 11a of the Statutes of Association of the Company.

6. Considering this reasoning, it is to conclude that amendments to Par.11a of the Statutes of Association of the Company, i.e. a new authorisation for the Management Board of the Company to increase the share capital within the limits of the target capital and to exclude preemptive rights are in the interests of the Company and its Shareholders.

Par. 5

The resolution becomes effective on the day of its adoption but the amendment to the Statutes of Association referred to in Par.1 of this resolution becomes effective on the date of registration of the amendments to the Statutes of Association by the competent court.
